

Ministry Day of Service Program

One Mission, Holy Ground, and Building Leaders are the guiding principles of CRISTA. To help further CRISTA's "One Mission" principle, employees are encouraged to strengthen connections with each of its ministries by participating in a Ministry Day of Service.

The purpose of the Ministry Day of Service is twofold: To serve a ministry's need and further the employee's understanding of the ministry's mission and vision.

For the Ministry Day of Service, employees may use a regularly scheduled paid day of work with their ministry or department, to serve in a different ministry of CRISTA that they are interested in helping or learning about (e.g., a work assignment that is normally performed by other paid workers).

Arrangements for the day of service are made directly with the ministry of the employee's choosing. The amount of time, day of service and actual work to be performed is subject to review and approval by the employee's supervisor.
